ATM attack
Physical attack
Logical Attack
Countermeasures
Fraud-based attack
Non-fraud-based attacks
ATM insured from physical attacks
Malware-based attack
Bank authorisation system
Use Violence/ Physical Attack
Record the event into the loss event DB
Insurance compensation
Approach ATM
Execute attack on ATM
Approach the ATM critical/ hidden physical access system
Preparatory step
ATM attack Execution step
Vulcan malware
Install Malware
Activate Malware
Get credentials of bank authorizer
Use credentials
Countermeasures
Approach the ATM critical/ hidden physical access system
Get ATM Drivers
Drill ATM
Collect the Spoils
Get into the facility
Video surveillance
Explosive & Gas
Fraud: with user interventor
Burglary
Ram Raids
Specific ATM card
Sequence of Numbers on PIN Pad
Commands by Mobile
Heuristic Controls
Social Engineer Server admin
Exploit vulnerabilities
IDS/IPS
Heuristic controls
Change control
Get into facility
Video surveillance
Get ATM Cabinet Master Key
Safeblaggs the safe
Social Engineer Maintenance staff
Collect to Organizer
ATMs internal communication subsystem
Social engineering facility staff
Break in
Disable Central
Explosive & Gas
Fraud: Using special hardware
Fraud: NOT using hardware
